EDUCATION

Bharati Vidyapeeth College Of Engineering

Sep 2023 – May 2027

Bachelor of Technology in Computer Science - CGPA - 8.89

Delhi, India

COURSEWORK / SKILLS

- Data Structures
- Artificial Intelligence
- Software Methodology
- Internet Technology
- Algorithms Analysis
- Systems Programming
- Database Management
- Computer Architecture

EXPERIENCE

ISSA, DRDO (Govt. of India) 🔗

June 2025 – July 2025

Machine Learning Intern

Delhi, India

- Developed a real-time hand therapy system using computer vision for **motion tracking and interaction**.
- Implemented **dual-hand detection, finger counting, and hand identification** for accurate analysis.
- Built responsive UI using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with teams and presented progress to improve system performance.

PROJECTS

SimuCare - AI-Powered Healthcare Digital Twin Platform 🔗 | [Python & its libraries](#) **March 2026**

- Developed an AI-driven platform integrating healthcare and financial data to simulate patient outcomes and support clinical decision-making.
- Built **predictive models** to estimate risks such as **hospital readmission, ICU stay duration, and patient deterioration**.
- Implemented the **cost forecasting** features to analyze **treatment expenses, insurance risks, and out-of-pocket costs**.
- Designed an interactive system to assist hospitals, insurers, and individuals with **data-driven insights**.
- [Live Link](#)

Quiz App (Full-Stack) 🔗 | [HTML, CSS, JavaScript, NodeJS, ExpressJS, File System \(fs\)](#) **April 2026**

- Built a dynamic quiz platform supporting multiple-choice questions with instant scoring and performance feedback. Applied logical **control structures** and **modular programming** to handle **quiz flow, answer validation, and result computation**.
- Enhanced user experience through a clean and **responsive interface design**. Optimized code structure for **readability** and **future feature integration**.
- [Live Link](#)

TECHNICAL SKILLS

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Eclipse, Google Cloud Platform

Technologies/Frameworks: GitHub, NodeJS, ExpressJS, JUnit, WordPress

EXTRACURRICULAR

BrainBot (Ideathon) conducted by CODECHEF 🔗

Feb 2026

Delhi, India

- Cleared Round 1 of BrainBot Ideathon (CodeChef Society) with **NeuroSense Conceptualized NeuroSense AI + Brain-Computer Interface (BCI)** based mental health monitoring system.
- Leveraged **EEG signal analysis** to identify early indicators of **depression** and **anxiety risk**. Designed as a preventive clinical decision support tool for proactive **mental health intervention**.
- [Participation Certificate](#)
